

WALK'N'ROLL CITIES

Mobility and public space innovations

Iván Tosics, Metropolitan
Research Institute, Budapest

Moderator: Luca Staricco

Today's car-domination in our cities **has a wide range of adverse consequences**, negatively affecting the quality of life of citizens. The presentation will show **visions and interventions that could contribute to massive reduction of car use in our cities**.

Among the discussed topics will be the following:

- The 15-minute city
- Pedestrian priority
- Tempo 30
- Parking management
- From highways to boulevards
- Superblock
- School streets

We will also discuss how we can make all this happen.

Iván Tosics is expert of the URBACT programme
