The workshop is designed to introduce students to the use of video in historical research, offering practical insights into how to analyze and communicate research outcomes through video. Participants will learn the basics of video editing using **DaVinci Resolve** and how to work with research materials to create engaging visual content.

DaVinci Resolve is the only solution in the world that offers editing, color correction, visual effects, motion graphics, and audio post-production in a single software. With a modern and sleek interface, it is powerful yet easy to use, making it ideal for both new users and professionals.
