

University of Minho, Braga, Portugal - June 30 - July 3, 2026

WORKSHOPS

MES 2026

Building multi-dimensional models for assessing complex environmental systems

Keywords: *Decision Support Systems, MCDA, Mixed methods, Dynamic Models*

Date: 30 June – 3 July 2026

Location: University of Minho, Braga, Portugal

This workshop will provide a multidisciplinary discussion about topics related to the interrelation and combination of human and natural systems in the context of projects, plans and programmes.

Scholars are invited to present their latest findings on the subject of evaluation approaches with a focus on urban and regional development, territorial regeneration and transformation, ecosystem services, sustainable and resilient development.

Specific topics of interest include, but are not limited to:

- Mixed methods
- System approaches
- Dynamic models
- Agent-based modelling
- Econometric models
- Machine learning
- Spatial models
- Decision Support Systems
- Scenario Analysis and simulation
- MCDA
- GIS based models

CHAIRS

Vanessa Assumma

Department of Architecture, Università di Bologna, Bologna, ITALY

Caterina Caprioli

Interuniversity Department of Regional Urban Studies and Planning, Politecnico di Torino, Turin, ITALY.

Giulia Datola

Department of Architecture and Urban Studies, Politecnico di Milano, Milan, ITALY

Federico Dell'Anna

Interuniversity Department of Regional Urban Studies and Planning, Politecnico di Torino, Turin, ITALY.

Marta Dell'Ovo

Department of Architecture and Urban Studies, Politecnico di Milano, Milan, ITALY.

Marco Rossitti

Department of Architecture Built environment and Construction engineering, Politecnico di Milano, Milan, ITALY
